Dear Parents,

As part of the Design Technology curriculum Year 5 have been designing pizzas and have chosen their toppings to their own taste and design.

We are going to be making the pizzas starting on Monday 31st January. I cannot say how long this will take or which day your child will be making their pizza however, we would like to gather all of the toppings and other items on the Monday. The childrens' individual toppings can be stored in a fridge here at school until they need them.

We will provide the basic pizza base, tomato topping and cheese. We will be making our own pizza dough and proving it. The cheese topping will be mozzarella and cheddar.

Your child will need to bring in their topping(s) and a container to bring (most of) their pizza home. I say 'most of' their pizza because, as part of the evaluation process, the children will need to check the quality of their finished product!

I anticipate that the pizzas will be relatively small so the container doesn't need to be huge. If we cannot fit the pizza in whole, we will cut it into pieces.

Finally, if there is anyone who cannot take part in this activity because of an allergy or any other issues, please let me know on the return slip below so that I can try to arrange an alternative activity.

Many thanks,

Mr. Hudson

.....

My child.....**can/cannot** take part in the pizza making activity. I confirm that they **do/ do not** have any allergies that will prevent them from taking part.

Details below please:
