

St Catherine's- Meet the Governors

	<p>Brendan Maguire (Foundation Governor & Chair of Governors)</p> <p>Originally from London, my wife and I moved to Launceston over 20 years ago. Both of our sons were educated at St Catherine's so I feel a special bond with the school, having seen how well they were cared for. This is one of the reasons I wanted to give something back to the school and community, by becoming a Governor then subsequently Chair. After working as an IT Manager in universities for over 35 years, I am now retired and hope to put some of my experience to good use.</p>
	<p>Louise Hussey (Executive Head Teacher)</p> <p>I was born in London but grew up in Cornwall from the age of 5. I gained a First Class BEd (Hons) in Maths from Exeter University and then taught and lived in Plymouth for 8 years, marrying and having my first child before moving to Manchester (my husband's home town). There I had 2 more children and carried on teaching part time for 6 years before deciding to return to bring up our family in Cornwall. I now live just outside Bude where I enjoy coastal walks with my children and dogs and have just taken up gig rowing. After working locally as an assistant head and completing my Headteacher qualification, I was thrilled to be able to join St Catherine's last year as Head of School where my passion for teaching is directed daily to the challenges of ensuring high quality, inspiring education for every one of our wonderful pupils.</p>
	<p>Pippa Warner (Head of School)</p>
	<p>Naomi Smith (Co-opted Governor)</p> <p>I was born on a ship just off Genoa in the Mediterranean before coming to the UK and adopted at 6 weeks. I grew up in a large family in Farnham, Surrey. My mother (an English teacher) was an emergency foster parent and ended up adopting 7 of us. I left home at 16 to study Maritime Radio and Radar Electronics- a Merchant Navy Radio Officer qualification. I stayed ashore due to my mother's cancer.</p> <p>I joined Her Majesty's Coastguard in 1999 in Brixham Devon after 1 year's training and 4 years' service. I realised how much I loved the job; it really suited me. I have since transferred to New Zealand for 2 years' service, Bermuda for 1 year and finally Australia for 4 years. The advance in technology over the years is fascinating.</p> <p>My 2 children live in Hampshire and from them I have 3 delightful young grandchildren.</p> <p>I wish every child to be able to dabble in science, think about adventure and flourish in their own way and I think some of my experiences can help them.</p>
	<p>Margaret Young (Co-opted Foundation Governor)</p> <p>I attended St. Stephen's school in the 50s, Horwell Grammar and Launceston College in the 60s and returned to teach at Launceston College in the 70s after training in Brighton and teaching in Reading.</p> <p>I met my late husband whilst he was an Archaeologist in Launceston Castle and both my sons were born in the town - I have very strong ties with the area.</p> <p>I am a Councillor on Launceston Town Council and served as Mayor from 2017-19. I have organised the Youth Council for several years and feel strongly that young people of the town must have a voice.</p> <p>In my spare time I enjoy catering , pottery, textile work and reading. I love to travel, especially to France on family holidays.</p>

John Sanders (Co-opted Governor)

I spent my early years moving around the country before settling in Tavistock, where I spent my teenage years before moving away to read Geology at University College London. After graduating I attended Royal Military Academy Sandhurst and on completion of training I commissioned into the Royal Logistic Corps. During my time in the Army I travelled to Canada, Cyprus, Germany, Nepal and completed an operational tour of Afghanistan.

I met my wife Becky whilst serving. I left the Army so we could start a family and settled in Gloucestershire where we had our two girls. On leaving the Army I transitioned into the world of project delivery, where I have controlled and enabled the governance of many projects, programmes and portfolios. I was delighted to achieve a lifelong dream of settling in Cornwall in 2021 as I started my new role with the Met Office where I am establishing the project delivery capability and governance of the entire Met Office portfolio of change work. In my spare time I enjoy running, water sports, property renovation and gardening.

I live in Launceston and both girls attend St Catherine's. I am really excited to bring my experience and skills gained from enabling governance across a broad cross-section of public sector and private industry in order to support the school in delivering the best it can for our children.

Emma Bending (Co-opted Governor)

Hello, my name is Emma Bending and I am really pleased to be part of the St Catherine's family as a Governor. I was born and brought up in North Devon before moving away to University and embarking on a teaching career in Gloucestershire and Wiltshire. I returned to the county 7 years ago with my husband Joe and we have our lovely Labrador Merlin. Whilst in education I had a particular interest in Literacy and Additional Special Needs and continue this interest in my Governor role. I love the outdoors and gardening. We live in a beautiful part of the country and I love to explore both coast and countryside.

Sally Powell (Staff Governor)

Hello. I am Sally, currently a year 5 teacher at St Catherine's and I have previously taught in both Year 2 and Year 4 here. Before coming to St Catherine's, I worked in a small Primary School in Devon and experienced teaching in mixed year groups. I was lucky to be able to teach all year groups at one time or another, from Reception to Year 6 and I can honestly say I have loved them all! Teaching is so much more than a job for me, it is a privilege and a passion and a profession I am proud to be part of.

Before coming to teaching, I worked in Manchester managing care contracts for the Local Authority. Just over ten years ago I started my teaching career in Early Years and initially qualified as an Early Years Professional before completing my Primary Teacher Training. I love the challenge of supporting students and families in so many different ways, and seeing a child develop their confidence and self-belief is the greatest reward of all. I believe that a young person's emotional well-being is the key to reaching their potential and aim to make this a key priority in my classroom.

As a Governor, I will be committed to school development and in doing so hope to help to secure the best education and school experience possible for our very valuable young people and their families.
